Hi Chris,

Yes, that's fine. We've been trying to keep Scott in the loop as to what is happening in EPA regarding GenX. This additional detail will help him.

Rick

Thanks Cindy
Rick, is Andy's e-mail below kosher to send on to Scott?

Rick,

I'm forwarding this string of emails to you as R3 point of contact for Chemours.

Hi Cindy,

Ex. 5 Deliberative Process (DP) Do you know who contacts are in R3 for Washington Works/OH River?

Hi Regina,

Please see e-mail trail below. I met Scott during a recent ORSANCO meeting and we briefly discussed this. I have not replied to Scott yet because I want to make sure with R3 leads on PFAS/Washington Works that it is ok to do so.

Can you please forward to folks involved w/ Washington Works?

C

Hi Chris – I assume by C3 Scott means GenX? If so...

Ex. 5 Deliberative Process (DP)

Hope that helps. If you haven't already, I suggest sharing Mandirola's email with the R3 folks...

Regards, Andy

Andy and Lynn,
Do you know of anyone in EPA involved with this issue? I have an email in to Becky Allenbach in R4.
WV needs to move fast on decisions of their own regarding Washington Works

Chris,

I wanted to touch base with you briefly to try to get an idea on EPA's progress in validating reviewing NC's C3 limit of 0.170ppb. WV is in the process of reissuing the Chemours Washington Works permit and are including both limits for C3 and C8. The company is claiming that the science behind the NC number of 0.140 for C3 is bad and we are hoping to get some input from the EPA if possible.

Thanks
Scott
